Subject Index to Volume 32 (1987)

1-64	JAN	233-304	APR	497-640	JUL	817-984	OCT
65-144	FEB	305-384	MAY	641-720	AUG	985-1096	NOV
145-232	MAR	385-496	JUN	721-816	SEP	1097-1176	DEC

The Subject Index is published in two parts: complete titles of papers are listed here by category; alphabetical entries by key word begin on page 1170).

Blood Gas Corner

#16—Low PO_2 in an Adult with Severe Dyspnea and Mild Chest Pain **121**
#17—Test Your Resuscitation IQ **695**

Books, Films, & Tapes

Assessment-Based Respiratory Care **48**
Blood Gas and Acid-Base Physiology **1080**
Clinical Arterial Blood Gas Analysis **1080**
Clinical Electrocardiography: A Self-Study Course **701**
Clinical Electrocardiography: A Primary Care Approach **701**
Clinical Simulations in Pulmonary Care **281**
Computer Assisted Instruction for Health Professionals: A Guide to Designing and Using CAI Courseware **970**
Cornerstone: A Database Management Program **1077**
CPR for Bystanders **282**
CPR for Rescuers **282**
Deposition Guide: A Practical Handbook for Witnesses **1155**
Diagnostic Methods in Critical Care: Automated Data Collection and Interpretation **702**
Exercise Testing and Exercise Prescription for Special Cases: Theoretical Basis and Clinical Application **1080**
Formworx **1078**
Fundamental Cardiovascular and Pulmonary Physiology **1157**
Handbook of Pulmonary Emergencies **281**
Master Guide for Passing the Respiratory Care Credentialing Exams **361**
Medical Abbreviations: 4200 Conveniences at the Expense of Communication and Safety **124**
Mirror II, PC-Talk, and Procomm **969**
1986 Yearbook of Pulmonary Disease **361**
Neonatal and Pediatric Respiratory Medicine **282**
Principles of Exercise Testing and Interpretation **703**
Pulmonary Function Tests: A Guide for the Student and House Officer **1159**
Residua of Thoracic Trauma **811**
Respiratory Care of the Newborn: A Clinical Manual **810**
Respiratory Disorders in the Newborn **810**
Respiratory Infections **209**
Respiratory Physiology **699**
Pulmonary Physiology in Clinical Practice **699**
Sleep and Its Disorders in Children **970**
Smoke in the Workplace—An Action Manual for Non-Smokers **700**
Snoring and Obstructive Sleep Apnea **1155**
The Lung: Physiologic Basis of Pulmonary Function Tests **362**
Ventilators: Theory and Clinical Application **209**

Case Reports

Intercostal Artery Laceration: A Major Complication of Needle Aspiration for Pneumothorax in Neonates **103**
Laryngotracheal Stenosis As a Complication of Upper-Airway Thermal Injury in Children: Two Cases **785**
Paradoxical Bronchoconstriction following Inhalation of Isoetharine Aerosol: A Case Report **29**
Rare Form of Hemoptysis Coinciding with Menstruation **882**
Tension Pneumothorax without Apparent Tracheal Deviation: Two Cases **1035**
Traumatic Bronchial Disruption: A Case Report **753**

Conference Proceedings

Airway Pressure Release Ventilation: A New Approach in Ventilatory Support during Acute Lung Injury **517**
Computerized Control of Mechanical Ventilation: Closing the Loop **440**
Continuous-Flow Apneic Ventilation **458**

Does Ventilatory Support Affect Outcome in ICU Patients? **594**
Expiratory Positive Pressure Valves: Flow Resistance and Work of Breathing **431**
Invasive Monitoring of Respiratory Gas Exchange **535**
Mechanical Ventilation: Conference Summary **605**
Mechanical Ventilatory Rates and Tidal Volumes **466**
Monitoring Non-Gas Respiratory Variables during Mechanical Ventilation **558**
Morphometric Changes in a Dog Model of ARDS after Early Therapy with CPAP **525**
Correction: Morphometric Changes in Dog Model of ARDS after Early Therapy with CPAP **886**
New Generation of Mechanical Ventilators **403**
Noninvasive Monitoring of Gas Exchange **544**
Pressure Support Ventilation: Effects on Ventilatory Reflexes and Ventilatory-Muscle Workloads **447**
Respiratory Muscle Function and Weaning from Mechanical Ventilation **572**
Respiratory Failure: Etiology and Mortality **584**
Role of the Inspiratory Circuit in the Work of Breathing during Mechanical Ventilation **419**

Drug Capsule

Sedation of the Mechanically Ventilated Patient in the Intensive Care Unit **792**

Editorials

Down with the Good Lung—(Usually) **849**
Focus on the Forum **1113**
Humidification: A Dry Subject, but . . **731**
New Role for the Respiratory Therapist in Smoking Cessation **1009**
Open Forum: Retrospection, Introspection, and Anticipation **17**
Perspectives on Weaning from Mechanical Ventilation—with a Note on Extubation **167**
Publication of Education- and Management-Related Material in RESPIRATORY CARE **657**
Rational Basis for Humidity Therapy **249**
Roles of Educators in Clinical Research **321**

Historical Notes

Cyanosis: Five Grams of History **113**
Of the Pleurisy **1145**
Pulmones, from Encyclopaedia Brittanica, 1771 **276**
Submucous Laryngitis **686**

Letters

Adjustable-FIO_2 Flow Generator **288**
Ambu PEEP Valves **1163**
Comment on "Attrition in Respiratory Care" **705**
Concerns about Modifications for Remote Alarms **287**
Deceiving the Pulse Oximeter and Medicare **215**
Defective Needles in Arterial Puncture Trays **287**
Does a Respiratory Protocol Minimize Cost? **705**
DuPuis Objects to Chatburn's Review **707**
Estimates of True Compliance versus Dynamic Characteristic **1161**
High-Flow Oxygen Delivery System **1163**
Intubation and Resuscitation of Meconium-Stained Newborns **130**
More on the Respiradyne Evaluation **1084**
New Application for High-Frequency Jet Ventilation **369**
No Money Saved with Oxygen Conserving Devices? **368**
One City's Answer to the Dilemma of Mandated Continuing Education **705**
pH Error in Blood Gas Corner #172 **1162**
PK Morgan Spirometer Evaluation Revisited **129**
Pursing and Pausing for Transtracheal Oxygen **367**
Respiradyne and Spirometry Standards **1089**
Site Heating Not Required with Pulse Oximeters **480**
Summary of Published Evaluation of the Respiradyne PF Monitor **1088**

Open Forum Abstracts **889**

Original Contributions

Attrition in Respiratory Care: The Role of Stress versus the Role of Intrinsic and Extrinsic Rewards **325**
Changes in Breathing Pattern during Pressure Support Ventilation **1011**
Computer-Assisted Instruction (CAI) in Arterial Blood Gas Interpretation.
Part I. The Effect of CAI on Students' Ability To Intrepret Blood Gas Values **95**
Part II. A Comparison of the Effects of CAI and Classroom Instruction **99**
Comparison of Conventional Mechanical Hyperventilation with Two Forms of High-Frequency Ventilation for the Control of Intracranial Pressure in Closed-Head Injury **733**
Determination of Intrapulmonary Shunt: Comparison of an Estimated Shunt Equation and a Modified Equation with the Classic Shunt Equation **268**
Effect on Airway Pressure When Electrical Power to Sevo Ventilator is Interrupted **1141**
Effects of Heated and Unheated Distilled-Water Aerosols on Expiratory Flowrates in Persons with Normal Pulmonary Function **1115**
Effects of Nebulizer Mode and Position on Dose Efficiency **1131**
Effects of Temperature and Humidity in Inspired Air on Expiratory Flowrates in Persons with Normal Pulmonary Function **851**

Effects of Two-Hand versus One-Hand Ventilation on Volumes Delivered during Bag-Valve Ventilation at Various Resistances and Compliances **1025**
Effect of Bronchodilator Inhalation on the Diffusion Capacity in Asthma and Emphysema **32**
Efficacy of Oxygen Insufflation in Preventing Arterial Oxygen Desaturation during Endotracheal Suction of Mechanically Ventilated Patients **865**
Evaluation of a Flexible Fiberoptic Catheter in Confirming Endotracheal Tube Placement in the Intensive Care Unit **81**
Evaluation of the Respiradyne Pulmonary Function Monitor **261**
Evaluation of Respiradyne II Spirometer **1123**
Evaluation, in Four Ventilators, of Characteristics That Affect Work of Breathing **1017**
Evaluation of the Accuracy of the Physio-Control Lifestat Pulse Oximeter in Measuring Arterial Oxygen Saturation **19**
Evaluation of the LINEAR KGT-3/4 Buffer Whole-Blood Tonometer **85**
Extubation without a Trial of Spontaneous Ventilation in the General Surgical Population **178**
Humidity Outputs of Large Reservoir Nebulizers **255**
Laboratory Evaluation of Moisture Output of Seven Airway Heat and Moisture Exchangers **741**
Measured versus Predicted Energy Expenditure in Mechanically Ventilated Patients with Chronic Obstructive Pulmonary Disease **748**
Modified Endotracheal Tube for Treatment of Unilateral Pulmonary Interstitial Emphysema **877**
Pressure-Limited Critical Care Ventilator **172**
Prevention of Hypoxemia in Good-Risk Patients during Postoperative Transport by Positioning and Deep Breathing **24**
Results of a Prospective Trial of Strategies for Improving Oxygen Utilization **859**
Use of Calculated Relative Inspiratory Effort as a Predictor of Outcome in Mechanical Ventilation Weaning Trials **870**
Validity of PaO_2 Values 3, 6, and 9 Minutes after an FIO_2 Change in Mechanically Ventilated Heart-Surgery Patients **1029**
Ventilatory and Hemodynamic Effects of High-Frequency Jet Ventilation following Cardiac Surgery **332**
Ventilatory Pattern and Inspiratory Work in Normal Subjects Breathing through an Inspiratory Muscle Trainer **669**
Weight Training Benefits in Chronic Obstructive Pulmonary Disease: A Controlled Crossover Study **660**
What Normal is Normal? A Computer Program To Compare Predicted Values for PFT **1137**

PFT Corner

PFT Corner #25: How Much Bronchodilator Is Enough? **355**
PFT Corner #26: Exercise-Induced Asthma—How Much is Enough? **691**
Correction: PFT Corner #26 **966**
PFT Corner #27: Noisy Breathing in a 16-Month-Old Boy **806**
PFT Corner #28: Exercise Tolerance: What Is Normal? **962**
PFT Corner #29: Interpreting Acute Post-Bronchodilator Changes in FVC and $FEF_{25-75\%}$ **1065**

Points of View

This Monitor Will Watch Your Baby: The Home Apnea Monitoring Controversy **202**
What's the Gas about Specialized Ventilatory Support? **781**

Reviews, Overviews, & Updates

Diagnosis and Treatment of Bacterial Pneumonia in the Intensive Care Unit: An Overview **773**
Diagnosis and Treatment of Sleep Apnea Syndrome **183**
Oxygen Conserving Devices **37**
Physician's Role in the Costs of Long-Term Oxygen Therapy **339**
Postoperative Pulmonary Complications in Heart-Lung Transplantation: A Review of the Literature **676**
Transtracheal Oxygen Therapy **345**
Use of 99mTc-DTPA Radioaerosol Lung Clearance in the Assessment of Acute Lung Injury: Clinical Applicability in the Adult Respiratory Distress Syndrome **757**
Where Has All the Bicarb Gone? **274**

Statements

American Thoracic Society Statement: Standardization of Spirometry—1987 Update **1039**

Test Your Radiologic Skills (TYRS)

Acute Decompensation of Second Twin **1070**
Acute Dyspnea in a Chemotherapy Recipient **279**
Acute Respiratory Distress in a Premature Infant **967**
Fever, Dysphagia, and Raspy Cough in a Child **808**
Hemoptysis following Anesthesia and Surgery **117**
Inspiratory Stridor in a Five-Month-Old Infant **697**
Intermittent, Aching Chest Pain with Cough in a Young Nonsmoker **1149**
Spherical Mass in a 30-Year-Old Non-Smoker **207**
Unusual Complication of Prolonged Intubation **359**
Weight Loss, Fever, Cough, and Pleuritic Chest Pain in an Ex-Smoker **44**

ALPHABETICAL ENTRIES BY KEY WORD

ARDS
—morphometric changes in dog model **525**
—use of 99mTC-DPTA in assessment of acute injury in **757**
Apnea
—infant, home monitoring controversy **202**
—sleep, Diagnosis and treatment **183**
Attrition in respiratory care
—comment on **705**
—stress versus extrinsic rewards **325**
Breathing pattern, changes during PSV **1011**
Bronchial disruption, from trauma **753**
Bronchoconstriction, Paradoxical follwing isoetharine administration **29**
Bronchodilator
—Effects of inhalation of, on diffusion capacity **32**
—Effects of nebulizer mode and placement on efficiency **1131**
Chest physiotherapy, positioning (editorial) **849**
Computer-assisted instruction
—effect on ABG interpretation **95**
—compared to classroom instruction **99**
Education, continuing, one city's answer (letter) **705**
Educator's role in clinical research **321**
Energy expenditure, in mechanically ventilated patients **748**
Exchangers, heat and moisture, evaluation **741**
Flowrates, expiratory
—Effects of aerosols on **1115**
—Effects of temperature and humidity on **851**
Hemoptysis, associated with menstruation, or catamenial **882**
HFJV, Ventilatory and hemodynamic effects following cardiac surgery **332**
HFV, Comparison with conventional ventilation for ICP control **733**
Humidity, humidification
—outputs of large nebulizers **255**
—heat and moisture exchange evaluation **741**
—rational basis for therapy (editorial) **249**
—dry subject, but (editorial) **731**
Hyperventilation, Comparison of conventional, with two forms of HFV in control of ICP **733**
Hypoxemia, Prevention of during postoperative transport by positioning and deep breathing **24**
Lung clearance of 99mTc-DTPA in assessment of injury **757**
Monitoring/Monitors
—concerns about modifications **287**
—controversy on home-monitoring for infant apnea **202**
—invasive gas exchange, during mechanical ventilation **535**
—non-gas variables during mechanical ventilation **558**
—non-invasive gas exchange, during mechanical ventilation **544**
Muscle function, Respiratory
—weaning from mechanical ventilation **572**
—inspiratory effort as predictor of weaning outcome **870**
—ventilatory pattern and inspiratory work through muscle trainer **669**
Nebulizers
—Humidity outputs **255**
—Effect of mode and position, on efficiency **1131**
Open Forum (editorial) **17**
Open Forum abstracts **889**
Oximeter, Pulse
—accuracy of Physio-Control Lifestat **1600**
—Deceiving, and Medicare (letter) **215**
—Site heating not required (letter) **480**
Oxygen/Oxygenation
—Determination of intrapulmonary shunt **268**
—Efficacy of insufflation during suctioning **865**
—Evaluation of Physio-Control Lifestat in measuring **19**
—hypoxemia prevention during postoperative transport **24**
—High-flow oxygen delivery system (letter) **1163**
—No money saved with conserving devices? (letter) **368**
—Oxygen conserving devices **37**
—PaO_2 3, 6, & 9 minutes after FIO_2 change **1029**
—Protocol to improve utilization **859**
—Pursing and pausing for transtracheal **367**
—Transtracheal therapy **345**
—Physician's role in cost of long-term therapy **339**
Pneumonia, bacterial, Treatment and diagnosis **773**
Pneumothorax
—Intercostal artery laceration, complication of needle aspiration for **785**
—Tension, without tracheal deviation **1035**
Pressure release ventilation **517**
Pressure support ventilation
—Changes in breathing pattern during **1011**
—effects on ventilatory reflexes and ventilatory workloads **447**
Protocols
—does a protocol minimize cost? (letter) **705**
—improved oxygen utilization **859**
Pulmonary functions
—computer program to compare predicted values **1136**
—estimates of true compliance versus dynamic characteristic (letter) **1161**
Research, role of educators in clinical (editorial) **321**
Respiradyne
—and spirometry standards (letter) **1089**

—Evaluation of PFT monitor **261**
—Evaluation of Respiradyne II **1123**
—more on evaluation (letter) **1084**
—summary of published evaluation (letter) **1088**
Respiratory failure, etiology and mortality **584**
Resuscitation, Cardiopulmonary
—Ambu PEEP valves (letters) **1163**
—Effect of two-hand versus one-hand ventilation on volumes delivered **1025**
—intubation of meconium-stained newborns (letter) **130**
—Where has all the bicarb gone? **274**
Shunt, Determination of intrapulmonary **268**
Spirometers and spirometry
—ATS standards **1039**
—PK Morgan **129**
—Respiradyne **261,1084, 1089, 1123**
Stenosis, Laryngotracheal, complication of thermal injury **785**
Tonometer, Evaluation of LINEAR KGT-¾ **19**
Tubes and intubation/extubation, endotracheal
—extubation without trial of spontaneous ventilation **178**
—modification for treatment of interstitial emphysema **877**
—placement confirmation by fiberoptic catheter **81**
—weaning and extubation (editorial) **167**
Ventilation, mechanical
—bag-valve ventilation, effect of one- versus two-hand compression **1025**
—Computerized control of . . . **440**
—conventional versus HFV for ICP control **733**
—Continuous-flow apneic ventilation . . . **458**
—CPAP, effect on ARDS dog model **525**
—energy expenditure during **748**
—extubation without trial of spontaneous ventilation **178**
—heat and moisture exchangers for **741**
—HFJV, Ventilatory and hemodynamic effects **332**
—monitoring during **287, 535, 544, 558, 1029**
—nebulizer position in circuit, effect on medication delivery **1131**
—outcome, effect of ventilatory support on . . . **594**
—calculation of inspiratory effort as predictor of . . . **870**
—PaO_2 values after FIO2 change **1029**
—positive-pressure valves, expiratory . . . **431**
—power interruption, effect on Servo **1141**
—pressure-limited ventilator **172**
—pressure release ventilation, Airway . . . **517**
—pressure support **447, 1011**
—rates during **466**
—resistance, flow associated with expiratory valves **431**
—sedation during **792**
—suctioning, oxygen insufflation during **865**
—summary, Conference **605**
—tidal volumes during **466**
—weaning from **572, 870**
—weaning from **572, 870**
—What's the gas about ventilatory support? (point of view) **781**
—work of breathing
characteristics of four ventilators **1017**
associated with inspiratory circuit **419**
associated with expiratory valves **431**
—ventilators, New generation **403**
Weight-training benefits in COPD **660**
